

JUTA®

VALPAINTE

Considerato come il tessuto green per eccellenza, la Juta è una fibra vegetale ricavata dalle piante della specie corchorus.

Completamente riciclabile e biodegradabile è chiamata anche “fibra d’oro” per i suoi riflessi lucenti e cangianti.

Grazie alle ottime prestazioni, la rendono un materiale utile e versatile e può essere impiegata in molteplici maniere.

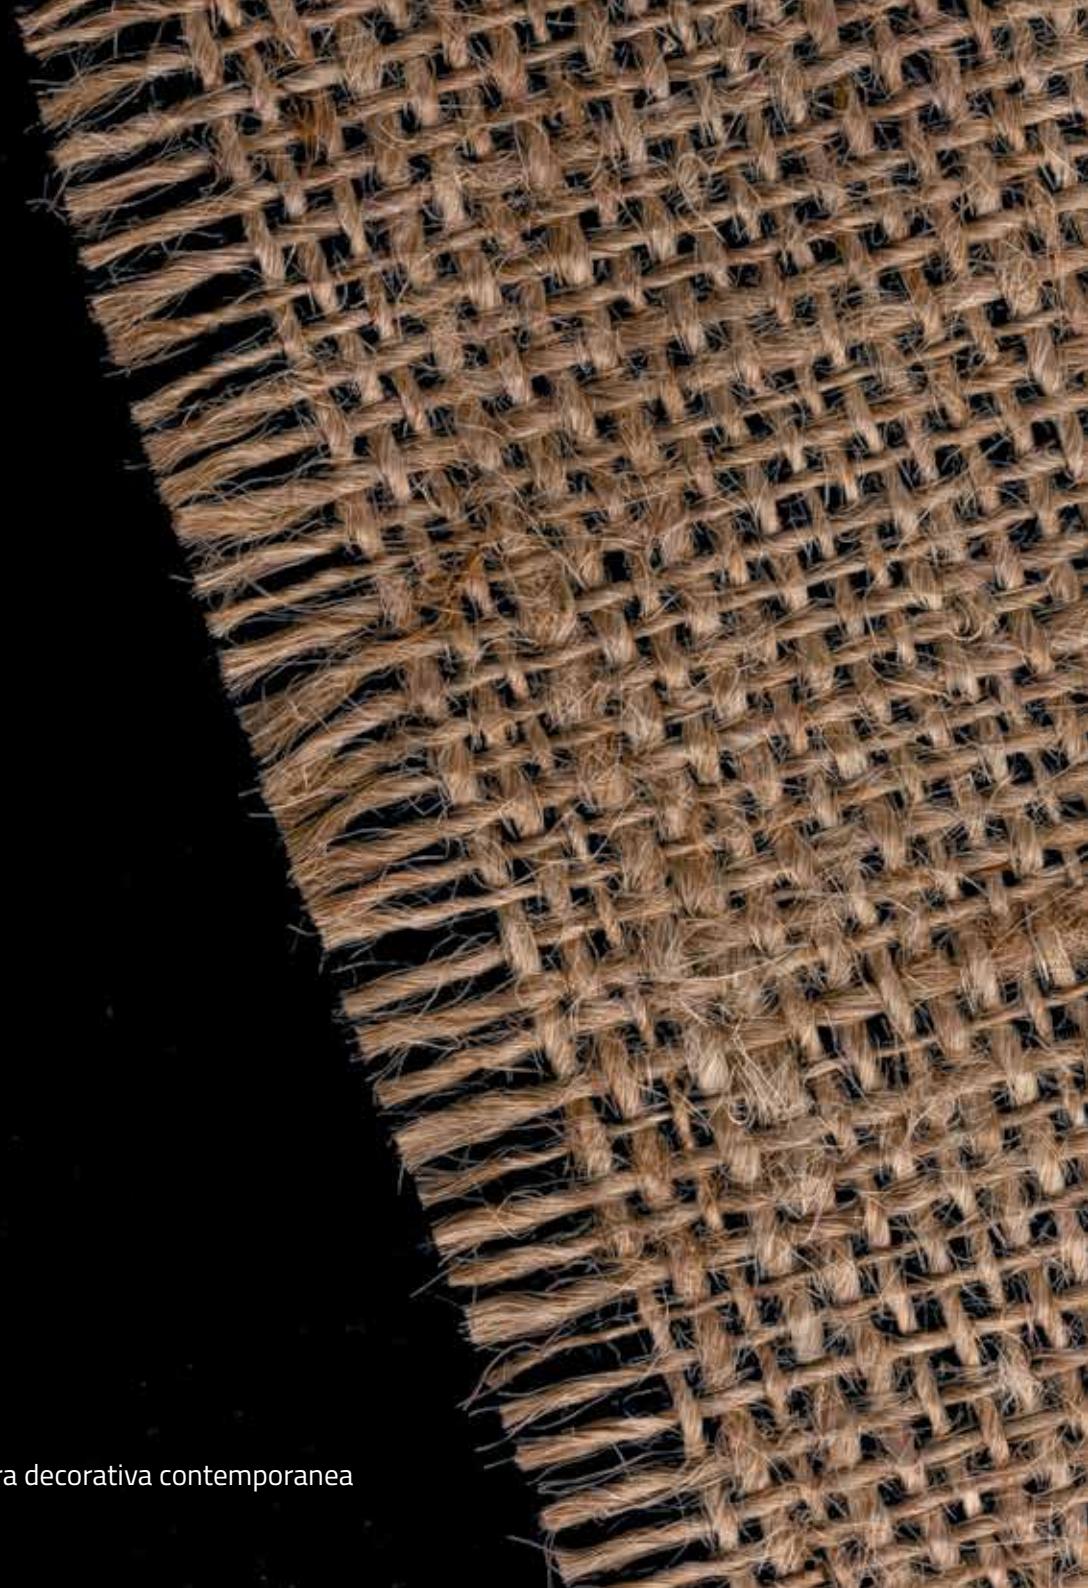

Oltre ad avere un largo impiego nell’agricoltura, la Juta viene ampiamente utilizzata per complementi d’arredo come tappeti, tende, cuscini e ancora tovaglie, runner, cesti in corda.

Le colorazioni in natura variano a seconda delle varietà, la palette di colori va dal bianco fino ad arrivare ad un color rosso-bruno.

La Juta naturale e le trame che vengono tessute, sono state la fonte ispiratrice per “tessere” una pittura decorativa dal grande carattere naturale.

JUTA di VALPAINT si “smaterializza” e diventa pittura decorativa dalla connotazione fortemente naturale per arredare ambienti ricercati e di design.

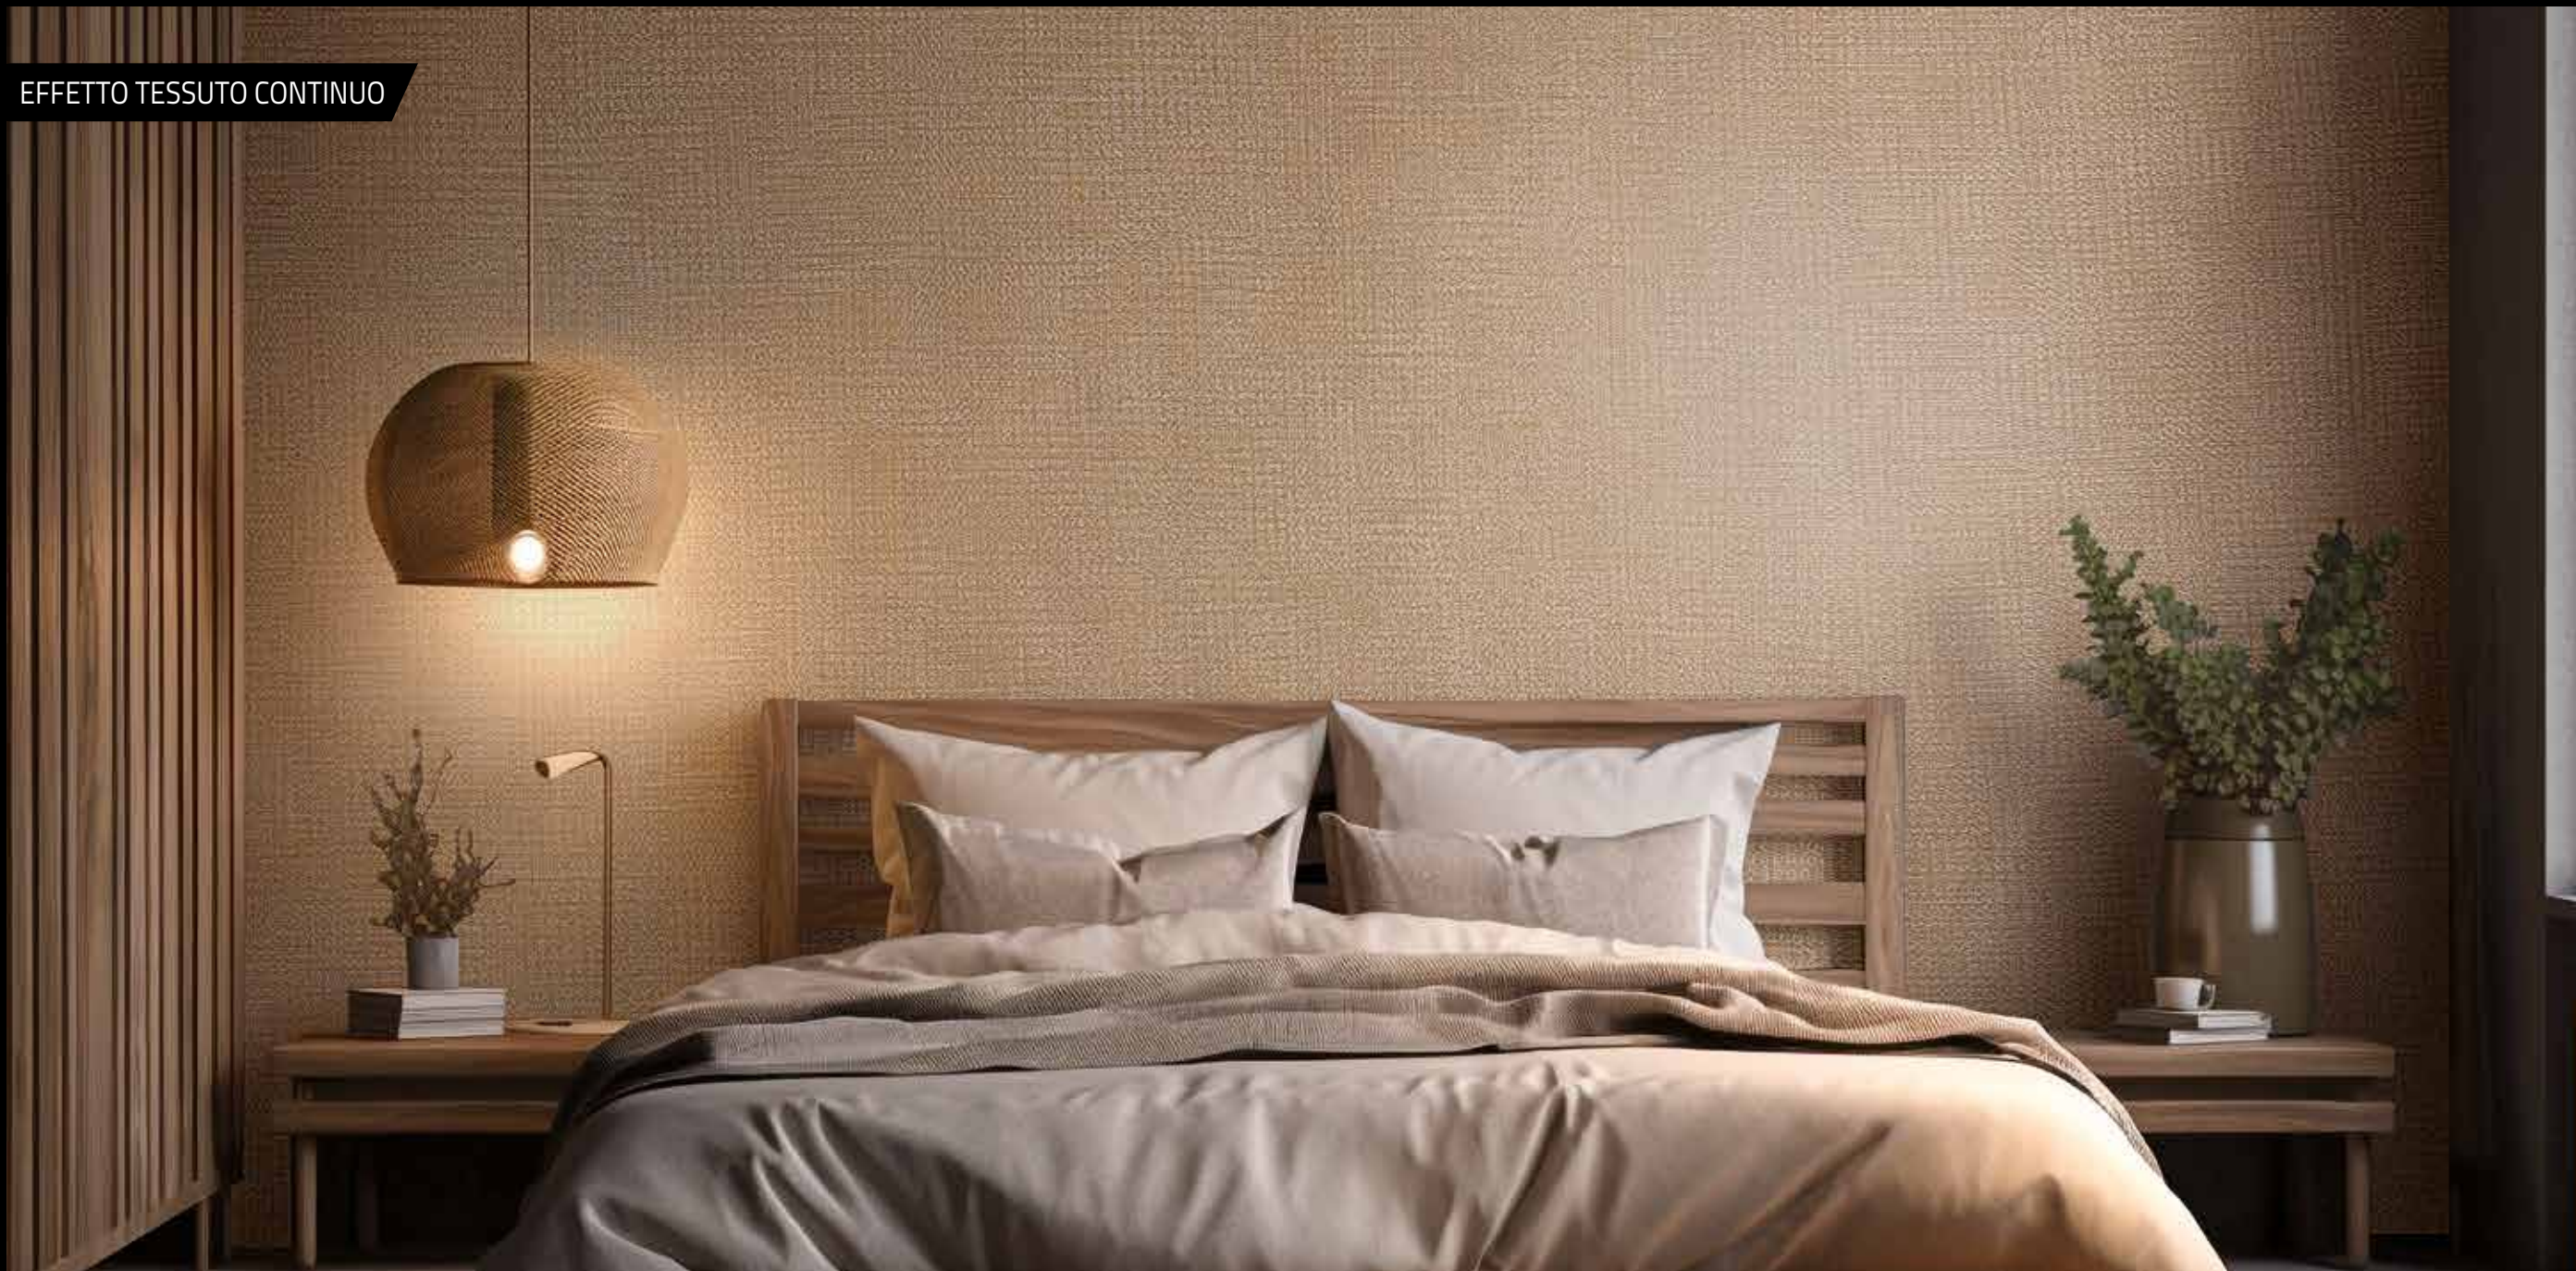

Ispirazione dalla natura... la fibra tessile usata fin dall’antichità, si trasforma in pittura decorativa contemporanea
